Report of Librarian

January 31, 1932 to January 31, 1933

The library has been opened 70 times during the year with 584 books taken out and fines of \$5.50 collected.

Dr. Hill still sends the *Missionary Review*.

Six books have been added to Everyman's Library by Dr. Hill.

Twenty-six books have been added by town appropriation.

State aid has been granted to the library. This means about 18 books, mostly juvenile, which we need very badly.

Henry Hayward presented us with a diary that was kept some 90 years ago, which contains some valuable information that might help toward bringing the town's history up to date.

To the Citizens of the Town of Temple:

The Board of Education of Temple respectfully submit its annual report with that of its Treasurer, Superintendent, and Auditors.

We feel we were very fortunate in keeping both teachers, Miss Georgia Rowell as teacher in the Grammar room and Miss Helen Rideout as teacher in the Primary room.

Report of Superintendent of Schools

To the School Board and Citizens of Temple:

I respectfully submit my tenth annual report as follows:

SCHOOL ORGANIZATION

We were fortunate in being able to retain the same teachers that we had last year. The only change has been in the elimination of the music supervisor, which was an economy measure. This work as well as the drawing is being carried on very satisfactorily by the regular teacher, but we hope it will be possible before many years to have special teachers for these subjects.

SUPERVISION

In previous reports I have described the routine work of my office and have spoken frequently of the testing program. The work of the past year has followed similar lines and the results of the tests have been sent to the parents as was done last year.

Improvement in teaching through the use of standard tests is well illustrated by the experience we have had in *oral reading*, systematic records of which have been kept since the fall of 1927. The test used consists of a series of five stories of uniform length and difficulty, appropriate to the grade in which they are used, standardized for the number of seconds it takes pupils to read them, and also for the number of errors made. These five tests are given at equal intervals during the school year, spaced so that the final test comes the latter part of May. The tests are given to pupils individually by their own teacher, who thus has the results immediately available to guide her in adjusting her teaching to the difficulties of each pupil.

The following summary of results is for the Supervisory District as a whole, with from seventy to ninety children in each grade.

First Grade: Median number of seconds required in May, 1928, 70; in May, 1932, 50; Standard score, 78.

Median number of errors made in May, 1928, 9; in May, 1932, 3; Standard score, 5.

Second Grade: Median number of seconds in May, 1928, 130; in May, 1932, 90; Standard score, 112.

Median number of errors in May, 1928, 10; in May, 1932, 4;
Standard score, 6.

Third Grade: Median number of seconds in May, 1928, 87; in May, 1932, 57; Standard score, 63.

Median number of errors in May, 1928, $4\frac{1}{2}$; in May, 1932, $2\frac{1}{2}$;
Standard score, 3.

MEDICAL INSPECTION

The annual medical inspection was made by Dr. Pease and the nurse, Mrs. Frank Cutter. The report of their findings is as follows:

Number of pupils examined	45
Number of teachers examined	2
Defects found: Teachers	0

Pupils: Defective vision	2
Defective teeth	26
Defective tonsils	2

Corrections reported by Mrs. Gilbert for preceding year are:

Vision	2
Tonsils and adenoids	2

BUDGET

The budget as presented shows a reduction of nearly \$500 in the estimated expenditures under state aid items. \$400 of this is in the item of teachers' salaries; this figure, however, is only \$75 less than this year's cost, due to the fact that we have no music supervisor this year. The further reduction for next year is based on the supposition that teacher's salaries may be reduced in line with the general reduction in salaries throughout the state. Small reductions have also been allowed on books and supplies. It is practically impossible to estimate in advance what the cost of transportation will be; the \$1500 estimate is the exact amount contracted for that purpose this year. The estimated cost for high school tuition is practically the same as for this year.

The amount for state aid next year will be approximately the same as it was this year. The financial report for last year shows a balance of \$723.28; \$400 of that was used in the budget a year ago to reduce the amount to be raised by taxation. The action of the District Meeting in further reducing the budget by \$316.97, practically wiped out the balance. Whatever balance we may have

at the end of the current year will represent decreases in cost which were not anticipated.

We believe that the sum recommended to be raised by taxation, \$4,200, is the absolute minimum requirement for next year. Any further reduction in this amount would necessitate changes that would seriously handicap the schools, unless ways can be found of reducing the cost of transportation.

SCHOOL ECONOMY

The budget as presented and explained in the paragraph above represents a very thorough study on the part of the School Board and myself in an effort to discover all possible ways of economizing in the cost of maintaining schools without seriously injuring their efficiency. We believe that local as well as national efforts at economy must heed the warning voiced by President Hoover at the National Conference: "However the national economy may vary, or whatever fiscal adjustments may be made, the very first obligation upon the national resources is the undiminished financial support of the public schools. We cannot afford to lose any ground in education. That is neither economy nor good judgment."

In closing this, my tenth year of service in this Supervisory Union, I wish to express my belief that our schools have made progress and to acknowledge the interest and cooperation of the parents and citizens generally, as well as of the School Board and teachers, which has made possible whatever advancement there has been. I trust that these conditions will continue to prevail and that the standards may be maintained in spite of the effects of economic conditions.

Respectfully submitted,

VERNON S. AMES
